

What is the **Purpose** of this **Engagement**?

The government of Canada is reviewing the Canadian Environmental Assessment Act. We would like to know from Six Nations, how our perspectives and interests in the land can be reflected and incorporated in the amendment.

What should be the **Purpose** of the **Environmental Assessment Act**? Are there **Points** that should be **Added** or **Removed**?

When should a Federal EA be **Done**? What should **Trigger** an EA?

Should **UNDRIP** and/or **TRC Calls to Action** be reflected in the EA process? **If Yes, How? If No, Why Not?**

What should be **Considered** when contemplating **Environmental Effects**?

Who should be **Included** when deciding if there is an **Environmental Effect**? **How**?

Should **Traditional Knowledge** and **Community Knowledge** be included in **Environmental Assessments**? **How**? What needs to be considered?

If there was an **Opportunity** for you to regularly participate in the EA process, **Would You**? How much time would you have to **Participate**, and what could that look like?

How can Six Nations ensure that **Our Views** and **Perspectives** are better reflected in any **Development, Acts or Policies**?
